Your body is younger than you think

At **Nuovvo**[®], we
are synonymous
with innovation and
cutting-edge design
in the development
and manufacturing of
bathroom products.

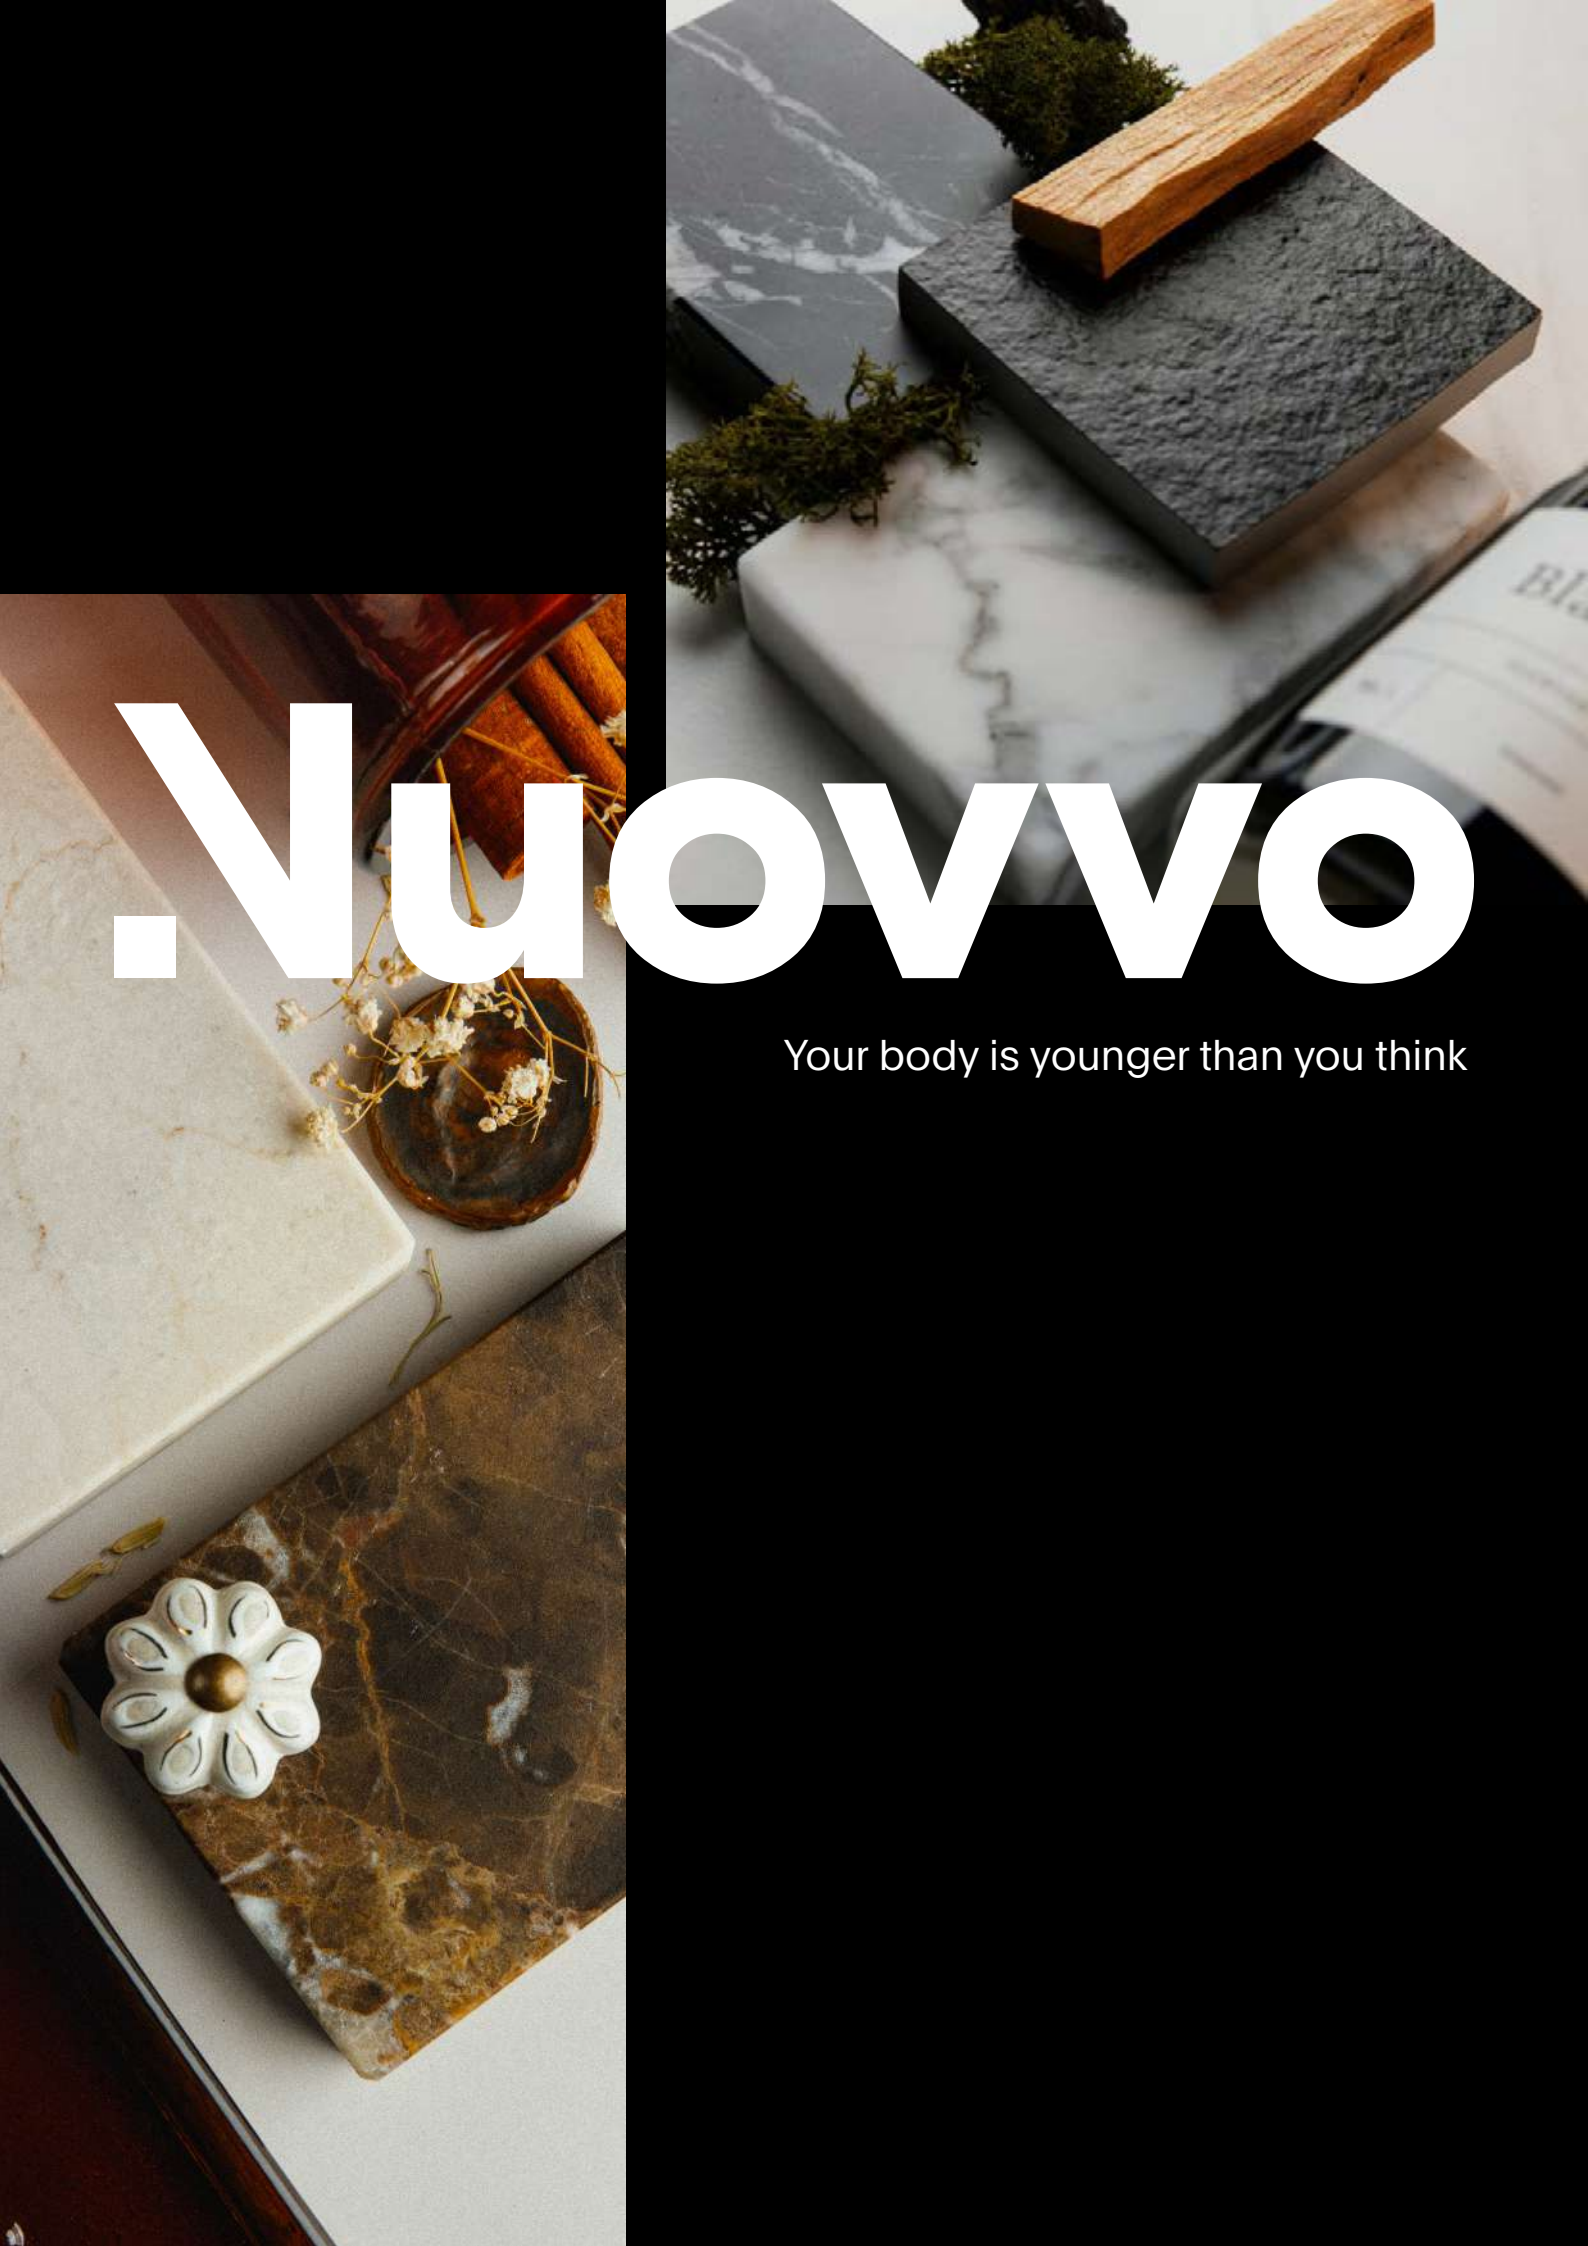

We strive to achieve the perfect balance between elegance and functionality, offering shower trays, panels, bathtubs, washbasins, and countertops made from durable materials and creative compositions. Our passion lies in bold designs, clean lines, and finishes that transform any bathroom into a unique and comfortable space.

We are inspired by creativity and craftsmanship, as well as by the precision of engineering. We work with materials such as mineral-filled resin and Solid Texture, ensuring durable products that are easy to maintain.

We are a strong and constantly evolving brand, made up of a multidisciplinary team committed to excellence at every stage of the process: from selecting the finest raw materials to delivering impeccable customer service. With a continually expanding commercial network, we bring our products to points of sale everywhere, ensuring that Nuovvo quality reaches every home.

Welcome to Nuovvo, where design and innovation redefine the bathroom.

Sustainability

a design by Nuovvo

We value sustainability, which is why we work every day to minimize our environmental impact through concrete actions that promote a more responsible future.

Nuovvo

We design products with a long lifespan, promoting more sustainable consumption.

We optimize our production processes, aiming to reduce energy consumption, improve efficiency, and ensure the highest quality of the final product.

We measure our carbon footprint in order to quantitatively manage our emissions.

We use 100% renewable energy, committing to clean and sustainable sources.

We hold ISO 9001 certification, ensuring a quality management system that supports our commitment to excellence and the environment.

At Nuovvo, we innovate not only in design, but also in responsibility.

Excellence

We are leaders in the manufacturing and commercialization of shower trays and bathroom components.

Teamwork

Collaborative and participatory processes. A product reaches the market thanks to the prior work of every member of the company.

Professionalism

We work with rigor and dedication in each of our processes, delivering a high-quality service to our clients and suppliers.

Innovation

We stay ahead. Trends and innovation inspire and motivate us, and they are the driving force behind our products and services.

Values

a design by nuovo

NUOVVOTECH

INNOVATION AND RESISTANCE

Nuovvotech is an advanced material composed of resin and silica-free mineral fillers, coated with a gel coat layer that provides exceptional resistance. Its innovative design allows the creation of bathroom products with unique textures, shapes, and colors, elevating customization to a whole new level.

NUOVVOTECH V

SAFETY AND CUSTOMIZATION

The silica-free mineral filler is combined with our polyurethane resin to create **Nuovvotech V**—an innovation that, thanks to its polyurethane base, provides a safe and highly resistant material for the bathroom without the need for a gel coat layer. **Nuovvotech V** delivers high-definition textures and vibrant colors.

ADVANTAGES

- Easy to cut, allowing it to adapt to any space.

- Lightweight mass, with an improved formula that is lighter without compromising strength.

- Silica-free, making it safer and more sustainable.

- Easy to clean and maintain, ideal for everyday use.

- Available in the full RAL color range, enabling complete customization.

- Optional textured finish, providing an exclusive design.

- High resistance and durability.

- Repairable material, extending its service life.

Materials

NUOVVOTOUCH

SOFTNESS AND DURABILITY

Nuovvotouch is Nuovvo's most versatile material, the result of the perfect combination of polyester resin and silica-free dolomite stone. Its Texture is coated with Nanocoat, a high-performance gel coat that provides superior protection and an exclusive silk-like touch.

ADVANTAGES

- Antibacterial certification, ensuring maximum hygiene and safety.

- Easy to clean and maintain, ideal for everyday use.

- High resistance, designed to last.

- Repairable material, extending its service life.

- Absolute versatility, adapting to any design.

- Silica-free, safer and more sustainable.

At **Nuovvo**, we design shower trays that combine innovation, strength, and aesthetics. Their advanced composition, based on resins and silica-free mineral fillers, ensures maximum durability and safety, while the high-performance gel coat layer enhances resistance to impacts, scratches, and thermal changes.

Available in a wide range of sizes and colors, they can be effortlessly integrated into any space. Their anti-slip Texture not only provides safety, but also adds decorative accents that enhance the bathroom design. Thanks to flush-to-floor installation, accessibility is also improved—ideal for those who want to combine functionality with style.

Lightweight mass

At **Nuovvo**, we design shower trays that combine innovation, durability, and aesthetics.

Each shower tray is protected with a high-performance gel coat layer, which enhances resistance to impact, scratches, and thermal changes. Its textured finish, in addition to being anti-slip, adds a decorative touch that elevates the bathroom design.

Thanks to their customization in size and color, Nuovvo shower trays adapt to any space. They are easy to cut and install, and their flush-to-floor version improves accessibility for people with reduced mobility.

Choosing a Nuovvo shower tray means selecting a highly tested product, aligned with the latest trends in design and quality—a perfect balance between functionality and style.

Moon Concrete shower tray 90×180, Texpanel 2.0 Slate White panels 250×90, Adra countertop with apron Black 100, Aure washbasin.

Moon

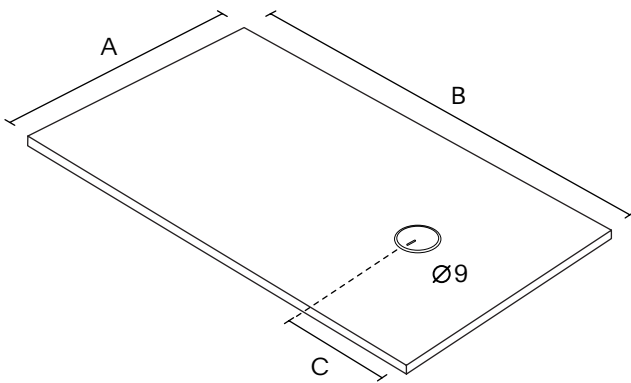

NUOVVOTECH

The elegance of the full moon inspires **Moon**, a shower tray where design and functionality orbit in perfect harmony. Its circular drain cover blends seamlessly with the Texture, creating a clean and sophisticated aesthetic that reinterprets minimalism in the bathroom.

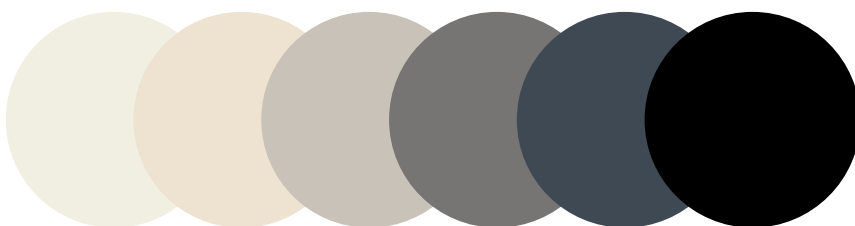

Its Evolution texture, subtle yet distinctive, provides a natural sensation underfoot, evoking the solidity of stone. Anti-slip and refined, it ensures safety without compromising on style.

Gravitzero concrete shower tray 90×180.

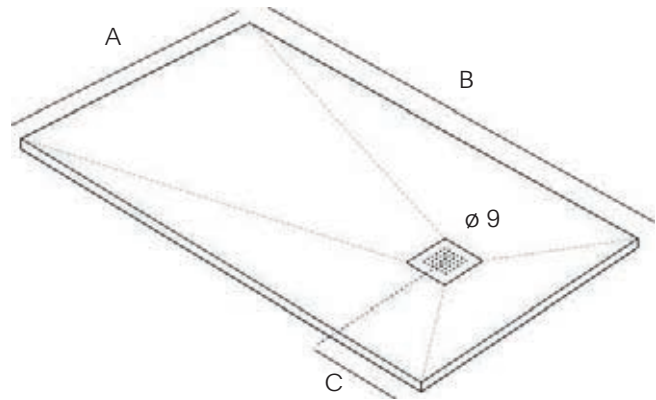

GRAVITZERO®

lightness_system

As a result of our commitment to innovation, Gravitzero® is one of the lightest and most impact-resistant shower trays on the market. Developed by our material experts, it combines resins, gel coat, and high-strength rigid foam with highly compacted compounds—achieving performance levels previously unseen in the industry.

A breakthrough that redefines durability without compromising on design.

Nature white shower tray 90×180.

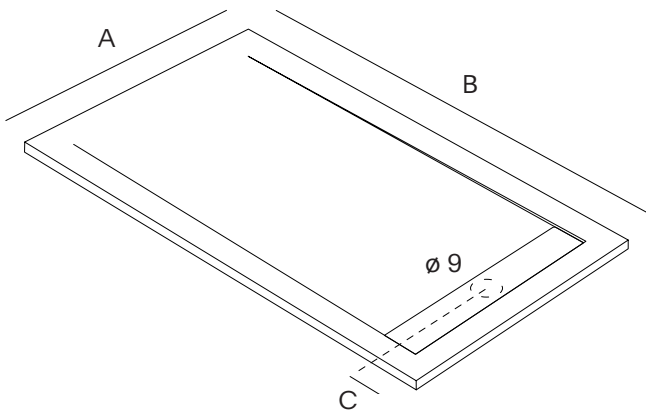

Nature

NUOVVOTECH

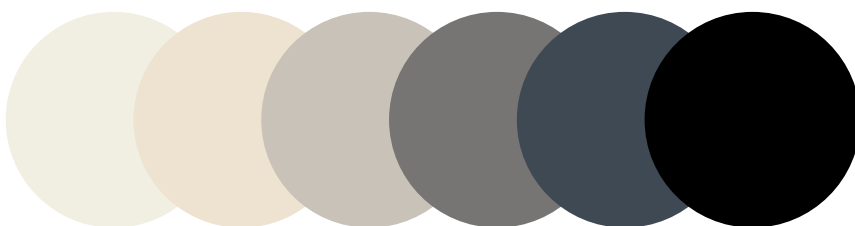

Nature takes minimalism to another level. Its innovative overflow drain system conceals the valve, allowing the stone texture to extend seamlessly without interruptions. The result is a continuous Texture that enhances the natural beauty of the material and transforms every shower into a unique sensory experience.

Panels

Texpanel 2.0

Transform your bathroom with panels, the perfect solution to renovate your space quickly and easily.

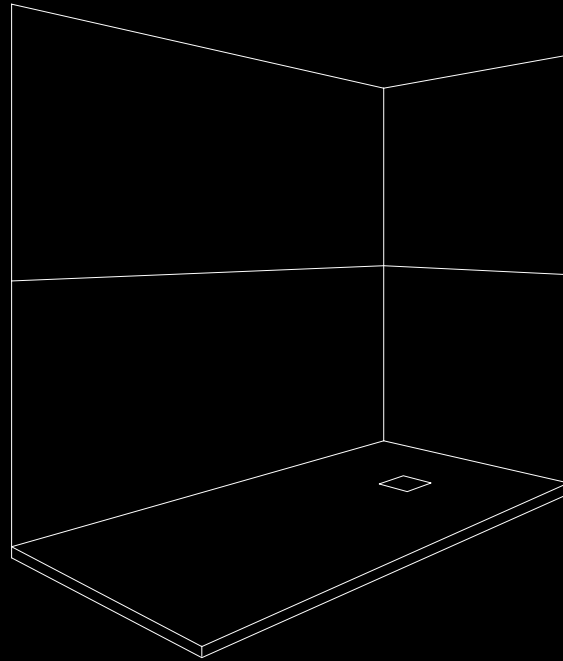

The panels allow you to create a uniform environment or play with contrasts for a more dynamic effect. Their installation without construction work and lightweight design make them the ideal option for quick renovations, especially when replacing a bathtub with a shower. In addition, their high resistance and versatility mean they can be used both in the bathroom and in other spaces, ensuring a flawless and long-lasting finish.

Adaptable to the space

Texpanel 2.0 is the perfect solution to transform any bathroom quickly and effortlessly.

Designed to perfectly match our shower trays, they share the same textures and colors, allowing you to create uniform spaces or play with contrasts.

In addition, with three textures and a wide range of colors—from standard shades to any option from the RAL chart—they adapt to all styles and needs. Their slim 6 mm thickness and height of up to 250 cm ensure seamless integration, making them the ideal solution for renovations without invasive construction work.

Our Texpanel 2.0 panels are made from Nuovvotech V, an anti-slip, clean, and hygienic material composed of polyurethane resin and mineral fillers. It offers excellent adaptation to bathroom humidity, as well as enhanced resistance and elasticity against breakage and impacts.

Design your own custom shower tray

In addition to the standard **Creativeskin®** models available, we also offer the option of personalising the shower tray using images provided by the customer – provided these meet the necessary minimum requirements for size and quality.

- **Minimum requirements:**

- **Quality**

Non-vectorised images must have a minimum resolution of 150 pixels per inch (ppi). Otherwise, the final result may appear blurry or pixelated.

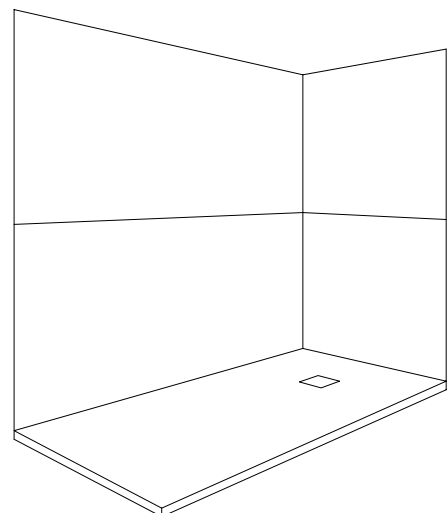

- **Size**

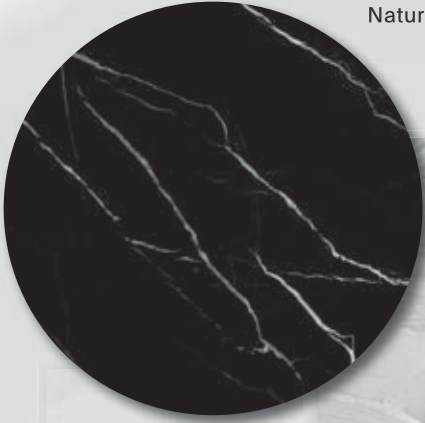

The images must show at least the approximate width and length of the shower tray requested by the customer. Otherwise, the image may be cropped and repositioned to match the dimensions of the shower tray.

-  - Highly durable, designed to last.
-  - Repairable material, extending its service life.
-  - Utterly versatile, adapting to any design.
-  - Silica-free, safer and more sustainable.

Note

Due to the limitations of the printing process, the colours shown in this catalogue are an approximation of the actual colours. Please request a physical colour and texture sample book for more accurate information.

The company reserves the right to change colours without prior notice.

Composition and features of the shower trays

Shower trays made from a mixture of resin and mineral fillers with a thermally fused gelcoat finish of sanitary grade (except Gravitzero®).*

Manufactured using a casting process in moulds, ensuring that every shower tray has a non-slip Texture.

Density: Water absorption 0.01% (after 24 hours of immersion).

Weight and hardness comparable to synthetic marble, such as that used for kitchen worktops (except Gravitzero®).

Can be cut to size using a diamond blade (except Gravitzero® and Creativeskin®).

High-performance drain with a flush-fitting cover made of stainless steel, colour-coated or in the same material as the shower tray – depending on the model.

* Antibacterial Texture treatment using the product Certificate ISO°NPG°H (high hydrolysis resistance). This treatment prevents material degradation caused by pathogenic microorganisms and thus helps to prevent the development of sources of infection through contact.

Quality certifications

Since 1 May 2012, manufacturers of shower trays for domestic use have been required to market their products across Europe with the CE marking in accordance with standard EN 14527. This CE marking confirms that the product complies with EU legislation and enables the free movement of goods within the European Economic Area.

Novarali S.L. is certified to ISO 9001:2015 for the design and manufacture of shower trays.

Laboratory tests

UNE-EN 14190:2017

Testing the slip resistance of unpolished floor coverings

UNE-EN 14527:2016 +A1 2019

Shower trays for domestic use.

DIN 51097:2016 RAMPA

Testing of the critical slip angle of floor coverings for wet areas accessible barefoot.

EN 14516:2006+A:2010

Bathtubs for domestic use.

Resistance of shower trays to abrasive cleaning products

The following table shows the results of various durability tests carried out on our shower trays using abrasive cleaning products of the kind typically found in a bathroom.

Product	10 Min	6 h	12 h	24 h
Bleach	✓	✓	✓	✓
Ammonia	✓	✓	✓	✓
Sulfuric acid	✓	✗	✗	✗
Cleaning vinegar	✓	✓	✓	✓

LISTED

Custom-made dimensions

Most of our tiles can be fully customised in both width and length. Customers can provide a technical drawing when placing their order to ensure the tile is cut precisely to the required dimensions.

Continuous segments are cut using a diamond blade (specially designed for tiles). Large cuts will reduce the slope and may result in an uneven edge thickness. Cuts of less than 4 cm are made on the same side. Where cuts exceed 4 cm, we can distribute them to centre the drain, but only at the customer's request. Upon request, the cut edges can be polished.

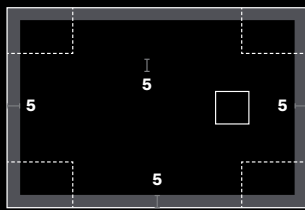

Please note: There is a margin of error of up to 1 cm due to the production and cutting processes.

Important

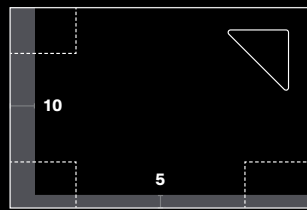

All our plates can be cut by the customer, except:

Creativeskin® plates, due to their composition, cannot be cut by the customer; they will therefore always be supplied from the factory in the final size specified by the customer.

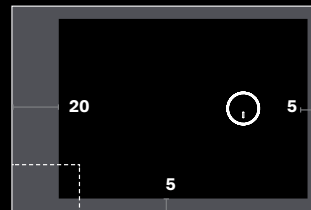

Curve and Gravitzero plates, due to their design, cannot be cut to any dimensions other than the standard sizes.

Screwed A

Double

All our shower trays comply with the drainage requirements set out in standard UNE EN 251:2014: Shower Trays – Connection Dimensions

VALSINR

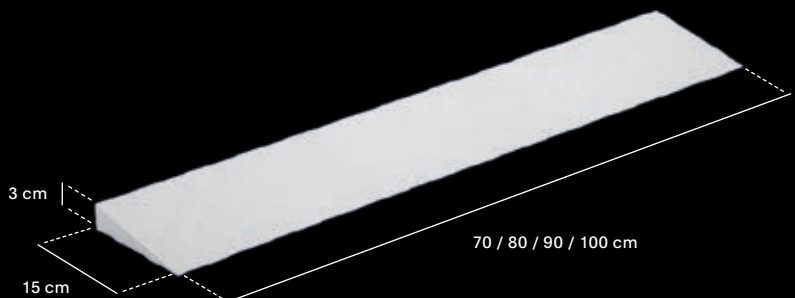

VALCONR

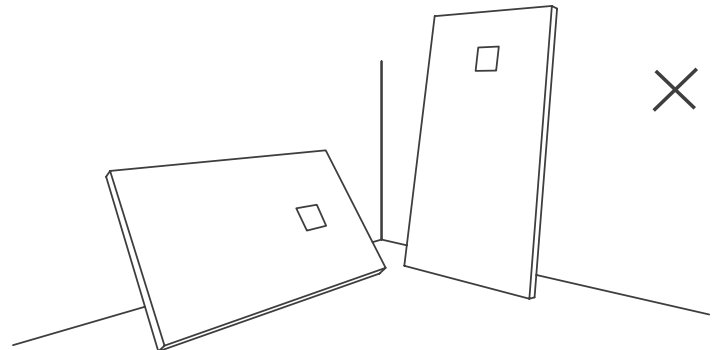

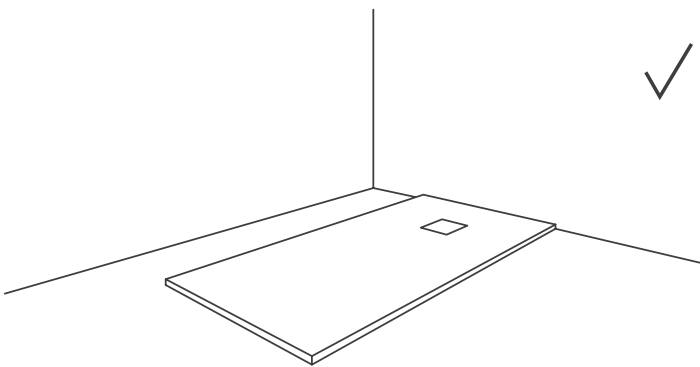

Access ramp

An accessory in the form of a ramp is available; it is installed next to the shower tray to provide people in wheelchairs or with reduced mobility with safe and more comfortable access to the shower.

Packaging and storage

Cardboard

The shower trays are individually and custom-fitted, packed with special protective layers and inspected. This gives us greater peace of mind during dispatch and ensures that the product arrives in perfect condition.

When storing, ensure that the shower tray is always kept in a horizontal position, as storing it vertically or at an angle can cause slight deformation, which may impair performance and complicate subsequent installation.

General Terms and Conditions

- 1.**
Orders for bathroom products from Novarali SL must be placed exclusively by email to alemania@nuovvo.com or to the email address of the assigned sales representative. Orders received by telephone, post or any other means will not be processed.
- 2.**
Returns of orders that are already in production will not be accepted.
- 3.**
The customer is responsible for complying with the terms of payment and for receiving the goods at the specified address. Any delays or costs arising in this connection shall be borne by the buyer. The terms of delivery are determined in accordance with Incoterms 2020.
- 4.**
The buyer undertakes to inspect the goods upon arrival. Any defects or errors must be reported to Novarali SL within 2 working days. Returns of defective or incorrect goods to Novarali SL are only possible with the prior written consent of Novarali SL.
- 5.**
Returns accepted in writing by Novarali SL must be carefully packed and palletised, as was the case with the original shipment. Only under these conditions will a refund of the value of the goods and the transport costs from the buyer to Novarali SL be accepted, following verification of the complaint. Transport costs must be approved in advance by Novarali SL; otherwise, the return transport will be organised by Novarali SL.
- 6.**
The price lists are subject to change without notice and may be amended depending on availability. Prices are exclusive of VAT or other taxes.
- 7.**
In the event of late payment, Novarali SL is entitled to delay or cancel deliveries to the same buyer. Interest on arrears and additional transport costs will be charged to the buyer at the applicable bank interest rate.
- 8.**
Novarali SL provides a 5-year warranty on shower trays and a 2-year warranty on panels and bathtubs. This warranty applies exclusively to its own products and not to accessories or installation costs. It covers only material and manufacturing defects. Damage caused by use that is not attributable to material or manufacturing defects is excluded from the warranty. A defective shower tray will be replaced with an identical product or the purchase price refunded, at the discretion of Novarali SL. Novarali SL reserves the sole right to determine the cause of any defect. In particular, damage caused by applied substances is excluded.
- 9.**
By placing an order with Novarali SL, the buyer accepts all the general terms and conditions of sale set out in this catalogue.
- 10.**
This catalogue is the property of Novarali SL. The reproduction of its contents, in whole or in part, whether in digital or printed form, is prohibited.
